

# ALL IDAHO AMATEUR RADIO OPERATORS

ARRL NEWSLETTER

December 2025

## ANYTHING AMATEUR RADIO

Polly Smith KG7DPO Idaho ARRL Public Information Coordinator (PIC)

Idaho ARRL “One-stop” email address for ALL  
Idaho Amateur Radio Operators.

**ALLIDAHOHAMS@gmail.com**

Please send your news, events, activities, and pictures.

Be sure to include recent Silent Keys (SKs)

**Do you have questions or comments? Send them.**

## Submitting Info for Anything Amateur in Idaho Newsletter

This newsletter is for radio enthusiasts and clubs to show how they are working the hobby in their Idaho communities to advance amateur radio. If you or your club supports an event, completes a project, or participates in an emergency communication mission, we want to hear about it.

Submit your article to ALLIDAHOHAMS @ gmail.com. Send them as Word files or PDFs. Send photos with the name and callsign of the photographer, and name the individuals with their callsigns.

Our goal is to highlight the excellent work that Idaho clubs and individuals do in their community.

This newsletter (and past newsletters) is posted on the Idaho ARRL website [Idaho ARRL](#) , and our readers are “all over.”

*December*

## ARRL Launches Nationwide Grassroots Campaign to Pass Amateur Radio Emergency Preparedness Act

[ARRL The National Association for Amateur Radio®](#) launched a nationwide [grassroots campaign](#) aimed at securing the passage of federal legislation that would grant Amateur Radio Operators the same rights to install antennas on their property as those enjoyed by users of TV antennas, wireless internet, and flagpoles.

The campaign, announced in an [ARRL Member Bulletin](#) on September 17, 2025, follows the reintroduction of the *Amateur Radio Emergency Preparedness Act* in February 2025 (see [ARRL News 02/07/2025](#)). The bipartisan bills -- [H.R.1094](#) in the House and [S.459](#) in the Senate -- are designed to prevent restrictive homeowners' association (HOA) rules that currently prohibit or severely limit the installation of amateur radio antennas, even when such antennas are hidden in trees, placed in attics, mounted on vehicles, or look like flagpoles.

"This legislation is about restoring equal rights to licensed Amateur Radio operators," said ARRL President Rick Roderick, K5UR. "These restrictions hinder not only the enjoyment of Amateur Radio, but also its vital role in emergency communication during disasters."

### ***Public Support Needed for Passage***

To advance the legislation, ARRL is calling on its members and all licensees of the US Amateur Radio Service to take action by sending letters to their congressional representatives. Through a dedicated online tool at [send-a-letter.org/hoa](https://send-a-letter.org/hoa), amateurs can easily generate and submit pre-drafted letters with a few clicks.

**Go to — [send-a-letter.org/hoa](https://send-a-letter.org/hoa) — and help us by sending your letters to your Representative and Senators.**

# Radio Communication Support for the Idaho Sled Dog Challenge

Submitted by  
Mickey Pillers, K7TPH

**\*\*Current Status\*\*:** The event requires a sufficient snowpack for the sled teams to run on, as well as low temperatures to ensure the dogs' comfort. This year, the warmer weather has delayed the development of a suitable snowpack. Because of this, the race committee has announced that they will make a go/no-go decision for the race on Thursday, January 1st.

For the fifth consecutive year, amateur radio operators from southwestern Idaho are coming together to support the Idaho Sled Dog Challenge. This event is scheduled to take place from January 31 to February 4, 2026, in the areas surrounding Cascade, McCall, and New Meadows.

Amateur radio communication support was chosen due to the limited cell phone coverage in the area and the presence of several amateur radio VHF repeaters.

The primary responsibilities include reporting the status of sled dog teams, providing logistics support, and coordinating emergency response. The event typically requires 10 to 12 radio operators to staff a Net Control station and several checkpoints. Over the years, these radio operator positions have consistently been filled by volunteers from Valley and Adams Counties as well as the Treasure Valley.
